50X1

Consolidated Listing of Suspect Locations of Missile Activity, COMOR-D-21/  
Final

50X1

3. [ ] reported that the subject listing now contained the suggestions for revision of representatives of the participating agencies. Since there had not yet been time for examination of the paper by the members, the Chairman requested that any who had further changes to propose do so by the close of business Wednesday next. This document will be referred to the PIs for use in examination of currently available film, and by the Air Force in the preparation of its new requirements list, which they are preparing for the consideration of COMOR.

50X1

AMS-CIA Photo Map Project

4. [ ] showed graphic materials being produced by AMS in cooperation with CIA in which satellite photography is being used to make the maps more useful for intelligence purposes. The Air Force suggested that this was in duplication of the work being accomplished by ACIC in the 200 series map project. The Chairman suggested that Mr. Tidwell for the DDI should examine with the Air Force the extent of the duplication and whether, if there is duplication, it is justifiable.
